

COMPOSITES AUSTRALIA INC.

The primary objective of Composites Australia is to provide a forum for the advancement of the composites industry.

The association represents fabricators, suppliers of raw materials and providers of services within the composites industry. With nearly 200 corporate members it provides a forum for the industry to exchange information and promote the development of new markets for composite products. The objectives for which the association is established are to:

- Responsibly maintain the market for and promote the increased use of composites products.
- Represent members' interests to Federal, State and Local Governments and regulatory authorities, insurance companies, consumer organisations and the media to ensure fair and equitable treatment of composites products.
- Develop a high standard of commercial ethics amongst members.
- Actively promote development of the skills base of the industry.
- Provide a forum for discussion by members on subjects of common interest.
- Liaise with other relevant industry groups and institutes, both within Australia and overseas.

Member benefits include:

- Members' briefings – functions for members to learn about current issues and hot topics for the industry and take part in networking opportunities with others in the industry.
- A two-day national conference which brings together speakers from both Australia and overseas along with an exhibition of trade displays and demonstrations.
- Promotion of your company's products/processes to the market via a listing on Composites Australia's interactive website.
- An email network for inquiries that provides fast and effective communication between members and potential customers, members seeking advice and other interested parties.
- Free safety posters for display within a production facility.
- Free copies of the Composites Australia magazine issued three times a year.
- The opportunity to promote your company's products and services in the magazine.
- Free copies of the official magazine of the American Composites Manufacturers Association issued twelve times a year.
