

Composites Australia Inc.

MEMBERSHIP RATES

Composites Australia is a member based not-for-profit association. The primary objective for which it was constituted is to provide a forum for the advancement of the Australian composites industry.

- Composites Australia Inc. promotes and supports the interests of members through the facilitation of business collaboration, access to opportunities, trade missions and site visits, advocacy, training, research and showcasing management and technical initiatives and best practice.
- The association represents fabricators, manufacturers, suppliers of raw materials and equipment, as well as providers of consulting services, including R&D and training and education.

MEMBERSHIP DETAILS

The registered objectives for which the association is established are to:

- Responsibly maintain the market for and promote the increased use of composites products.
- Represent members' interests to Governments and regulatory authorities, insurance companies, consumer organisations and the media to ensure fair and equitable treatment of composites products.
- Develop a high standard of commercial ethics amongst members.
- Actively promote development of the skills base of the industry. the CA magazine.
- Provide a forum for discussion by members on subjects of common interest.
- Laise with other relevant industry groups and institutes, both within Australia and overseas..

Some of the benefits* of membership include:

- The opportunity to take part in industry functions, briefings and factory tours to gain insights into manufacturing and engineering step-changes, innovation and business conditions across the breadth of the sector. These events are a forum to collaborate and network with others in the industry.
- Members rates for the two-day national conference which brings together composites practitioners and supply chain partners along with trade displays and demonstrations.
