

AN EXCLUSIVE INVITATION | TUESDAY 25 NOV 2025 | 10AM -2PM (AEDT)

TO THE ADVANCED MANUFACTURING READINESS FACILITY (AMRF)

Join **Composites Australia** and the **AMRF** for a half-day conference and networking event at Bradfield City's new \$60m+ advanced manufacturing hub. The program will explore automation in composites production, digitalised workflows and scalable manufacturing, with live equipment demonstrations.

DELEGATES WILL SEE:

Compression moulding, robotic filament winding, automated ply cutting and kitting, laser ply projection and metal and polymer 3D printing.

FORMAT: Presentations, Q&A, facility tour and networking lunch

CAPACITY: 80 places

SPEAKERS: **Luke Preston** CTO, ACMCRC:
The composites landscape

Kerryn Caulfield Executive Director, Composites Australia:
Industry update

Nathan Howell Lead Engineer, AMRF:
Facility overview and capability

Gareth Jones Managing Director, Marley Flow:
Automating composite blade manufacturing

Ben Leavold Composites Engineer, AMRF:
Digital design with 3D-printed tooling

Dr Nisa Salim Director, Swinburne-CSIRO Testlab:
Scalable manufacturing in compression moulding

TICKETS:

Members: FREE

Non-members: \$50

Light refreshments
& lunch provided

VENUE & ACCESS:

First Building, 215 Badgerys Creek Rd, Bradfield NSW 2556 [CLICK HERE FOR MAP](#)
Free parking on-site. Step-free access. Closed-toed footwear required for the tour. Please advise requirements at checkout.
